BlackBerry 7130e™

INTRODUCING THE BLACKBERRY 7130E

Get the voice capability you need, plus the data and e-mail access you want. The **BlackBerry 7130e** is a cellphone that offers the convenience of **BlackBerry** functionality, but in a smaller handset design. This professional business tool provides a complete voice and e-mail solution that will keep you connected to people and information when you're on the go.

PREMIUM PHONE FEATURES

You can place and receive phone calls on this sleek and stylish full-featured cellphone. Use the speakerphone for hands-free calling, ideal when reviewing documents with a client or when participating in conference calls.

The **BlackBerry 7130e** supports **Bluetooth®** technology, letting you connect with hands-free headsets and car kits for safe and convenient conversations while in your vehicle.

The handset also has dedicated send/end buttons for easier navigation. With the polyphonic ring tone notification, you can assign different sounds to different numbers, so you will always know who is calling.

FULL BLACKBERRY FUNCTIONALITY

With the **BlackBerry 7130e**, you can access both your personal and corporate e-mail when you're away from the office. The "push" technology means that e-mail is automatically delivered to the **BlackBerry 7130e**, so you will be notified as soon as new e-mail arrives, allowing you to respond faster to your most important messages.

With the **BlackBerry Enterprise Solution™**, you can maintain your existing corporate e-mail address for ease of adoption as it integrates seamlessly with Microsoft® Exchange, Novell Groupwise and Lotus® Domino. You can read, reply, forward, and delete messages as well as manage your inbox by utilizing message filtering and synchronizing options.

In addition, with the **BlackBerry Internet Solution™**, you can integrate up to 10 e-mail accounts including Sympatico, Hotmail, and more. You will have 25 megabytes of virtual storage and wireless access to your existing e-mail accounts (including ISP accounts) through the POP3/IMAP protocol or mail forwarding.

You can also count on the compact **BlackBerry 7130e** to keep you organized. Schedule appointments, check and update contact and task lists, take notes and write memos. With the **BlackBerry Enterprise Solution**, the **BlackBerry 7130e** wirelessly synchronizes with your PC automatically.

EASY TO USE SURETYPE™ KEYBOARD TECHNOLOGY

The **BlackBerry 7130e** features **SureType™** technology, combining a traditional phone keypad, a QWERTY keyboard layout and intuitive software. It "learns" as you type, so it's fast and easy to enter information. Plus, the keys are spaced comfortably apart, making typing more accurate.

(cont'd on reverse)

BROWSE THE INTERNET

The large, brilliant, high resolution LCD colour screen on the **BlackBerry 7130e** is ideal for browsing web sites, with both HTML and WAP browsing, or for viewing pictures or multimedia images. It also allows users to connect laptops to the Internet using the device. The **BlackBerry Messenger™ Instant messaging** application is ideal when you just need to send a quick message.

1xEV-DO NETWORK ENABLED

The **BlackBerry 7130e** works on the new **1xEV-DO** (Evolution - Data Optimized) network from Bell. This dedicated data only network offers increased data speeds of up to 2.4 Mbps, and download speeds of 400 to 700 kbps in **1xEV-DO** coverage areas. Outside of these areas it switches to the **1X** network. This high-speed wireless data access offers unbeatable data speeds and better performance that improves the ability of businesses to stay connected while on the go.
